

## Release Notes: MX Portal V1.9

The MX portal was upgraded on 3/30/19. Below are the release notes for version V1.9.

**TABLE 1: SUMMARY OF CHANGES**

| Item Number | Summary  | Description  |
|-------------|--|--|
| 1           | Enhancement Request: Rename the facility column in MX Access tabs  | To more accurately represent the sources of information displayed in the allergies, problems & diagnoses, encounters, radiology, procedures, documents, and vaccinations tabs, the column formerly labeled “Facility” is now labeled “Reporting Entity.” |
| 1.1         | Enhancement Request: Expand details pop-up box in the documents and radiology tabs   | In the documents and radiology tabs, the details pop-up box displays a full-sized text box, allowing users to see more information on the screen without having to scroll as often.  |
| 1.2         | Enhancement Request: Create a downtime banner for MX Platform  | A banner is displayed at the top of the MX Platform login page to notify users when the system is undergoing maintenance. This banner prevents users from having to check their email for downtime notifications.  |
| 2           | Data Defect: Remove the allergy icon in a patient’s medical record when the only allergen listed is “NKA”  | The allergy icon, located at the top right side of a patient’s medical record, is not displayed if the only allergy listed is “NKA, No Known Drug Allergies, NKDA, NDA, or No Drug Allergies.”   |
| 3           | Data Defect: In the problems & diagnoses tab, remove incorrectly populated diagnosis when the ICD code and description columns display “Free Text” | In the problems & diagnoses tab, incorrectly populated diagnoses are not displayed when the “ICD Code” and “Description” columns display “Free Text.”  |
| 4           | Data Defect: In the encounters tab, remove facility names that are incorrectly populating in the “Hospital Service” field                          | When the “Hospital Service” field in the encounters tab was not populated, the field defaulted to populate facility names. Facility names have been removed from the “Hospital Service” field and will not populate this field in the future.            |

The following table presents a comparison between the previous version (V1.8) and the new version (V1.9).
